### **Article 50**

#### **Bestsellers in face masks!**

The one accessory which has become the part and parcel of everyone's life now is a face mask. Face masks have become indispensable in everyone's life and it is mandatory to wear them all around the world. The pandemic has taken so many lives and people are following all required measures to keep themselves safe and keep the viruses at bay. All the doctors across the world suggest people to wear face masks before stepping outside or in a crowded place.

The products can be bought from a wide range which can be explored on online platforms. There are so many types and styles of masks which can be bought online. The mammoth range of LED products include face masks as well which are completely safe to use. The different types and trending styles of face masks are listed below:

#### **Fiber optic light up face masks**

The masks look magical and have an amazing aesthetic appeal. The fiber optics are present on the entire mask in a pleated pattern over a white base which makes for a great accessory. The fiber optic light up masks are great for parties, night outs, concerts and more. This does not protect you from viruses but surely looks amazing when you adorn them. The mask is designed to get adjusted according to the size of the face. These are rechargeable using a USB which makes it a technology marvel. One charge can last for hours at stretch and the face mask is very comfortable to wear.

#### **LED mask with smartphone control**

This LED face mask is a great example of technology meeting fashion. The LED mask is made of breathable fabric and has a LED panel in front which is controlled using an app through your smartphone. You will be thrilled to know that the quality is excellent and the face mask is soft, comfortable and durable as well. The LED mask has an adjustable earlobe which makes it customer friendly for a wide range of people.

#### **Full face LED light up shining mask**

This is also a great portrayal of technology in face masks where the mask is made of ABS, PVC lens and silica gel. An app is used to change the LED light pattern displaying on the mask making it the best LED face mask ever. This has a charge time of around 5 hours and a run time of around 12 hours. These are completely safe of use and can be worn to techno parties, theme parties, glow in the dark parties and more.

#### **Glow in the dark eye mask**

This is perfect for kids as well as adults if you wish to buy eye catching accessories for eyes! The glow in the dark eye mask is great for concerts, birthday parties, ball dances, etc. The glow in the dark mask has a very high quality and these come in assorted colors and styles to suit various

occasions. The light up face masks are the best as they can be used by people who do not want to wear the normal masks.

### **7.5" foam zoo animal mask**

If you are looking for masks for your kids then buy these 7.5" foam zoo animal masks. These are so cute to look at and are made of very soft material. They can be custom made for any occasion and can be bought in various styles. The quality of the light up face mask is high and the price is very reasonable. You will be thrilled to make purchases for these amazing masks as your kids are going to love these masks.

The LED face mask covid supplies are different and can be seen in another range of the products that we offer. You get a price which is unparalleled and a quality which is unmatched. The masks can be bought in standard as well as custom made formats.
